25 Guy, J.A, Johnston, B. and **Cacho**, O.J. 2009. Economic assessment of an intra-specific cross of silver perch (*Bidyanus bidyanus* Mitchell) for commercial farming. *Aquaculture Economics and Management*. 13(4): 328-343.

26 **Cacho**, O.J., Hean, R. and Karanja, F. 2008. Accounting for carbon sequestration and its implications for land-use change and forestry projects. *CAB Reviews: Perspectives in Agriculture, Veterinary Science, Nutrition and Natural Resources*. 3 (077): 1-17.

27 **Cacho**, O.J., Wise, R.M., Hester, S.A. and Sinden, J.A. 2008. Bioeconomic modeling for control of weeds in natural environments. *Ecological Economics*. 65: 559-568.

28 Farquharson, R., **Cacho**, O.J., Mullen, J. and Schwenke, G.D. 2008. An economic approach to soil fertility management for wheat production in north-eastern Australia. *Agricultural Economics*. 38:181-192.

29 Sinden, J., Downey, P.O., Hester, S.M. and **Cacho**, O. 2008. Economic evaluation of the management of bitou bush (*Chrysantemoides monilifera* subsp. *rotundata* (DC.) T.Norl.) to conserve native plant communities in New South Wales. *Plant Protection Quarterly*. 23(1):34-37.

30 **Cacho**, O.J., Hester, S. and Spring, D. 2007. Applying search theory to determine the feasibility of eradicating an invasive population in natural environments. *Australian Journal of Agricultural and Resource Economics*. 51: 425–443.

31 Spring, D.A., **Cacho**, O.J. MacNally, R. and Sabbadin, R. 2007. Pre-emptive conservation versus 'fire-fighting': a decision theoretic approach. *Biological Conservation*. 136: 531-540.

32 Wise, R.M., **Cacho**, O.J. and Hean, R.L. 2007. Fertilizer effects on the sustainability and profitability of agroforestry in the presence of carbon payments. *Environmental Modelling and Software*. 22: 1372-1381.

33 Alford, A., **Cacho**, O.J., Davies, B.L. and Griffith, G.R. 2006. An economic model of the Northern Tablelands grazing system for assessing wool industry technologies in a whole-farm context. *International Journal of Sheep and Wool Science*.54 (3): 26-54.

34 Alford, A.R. , Hegarty, R.S., Parnell, P.F., **Cacho**, O.J., Herd, R.M. and Griffith, G.R. 2006. The impact of breeding to reduce residual feed intake on enteric methane emissions from the Australian beef industry. *Australian Journal of Experimental Agriculture*. 46: 813–820.

35 Behrendt K., **Cacho** O., Scott J.M. and Jones, R. 2006. Methodology for assessing optimal rates of pasture improvement in the high rainfall temperate pasture zone. Australian Journal of Experimental Agriculture. 46 (6-7): 845-849.

36 **Cacho**, O.J. 2006. Bioeconomics of invasive species in aquatic ecosystems. *Aquaculture Economics and Management*. 10(2):107-124.

37 **Cacho**, O.J., Spring, D., Pheloung, P. and Hester, S. 2006. Evaluating the feasibility of eradicating an invasion. *Biological Invasions*. 8 (4): 903-917.

38 Jones R., **Cacho**, O.J. and Sinden, J. 2006. The importance of seasonal variability and tactical responses to risk on estimating the economic benefits of integrated weed management. *Agricultural Economics*, 35:245-256.

39 **Cacho**, O.J. Marshall, G.R. and Milne, M. 2005. Transaction and abatement costs of carbon-sink projects in developing countries, *Environment and Development Economics* 10(5): 597–614.

40 Odom, D.I.S., Sinden, J.A., **Cacho,** O.J., and Griffith, G.R. 2005. Economics issues in the management of plants invading natural environments: Scotch broom in Barrington Tops National Park. *Biological Invasions* 7: 445–457**.**

41 Simmons, P. and **Cacho**, O.J. 2005. A possible conflict between economic efficiency and political pressure. *Computational Economics*. 26: 129-140.

42 Sinden, J. Jones, R., Hester, S., Odom, D., Kalisch, D., James, R., **Cacho**, O. and Griffith, G. 2005. The economic impact of weeds in Australia. *Plant Protection Quarterly*. 20 (1): 25-32.

43 Wise, R.M. and **Cacho**, O.J. 2005 A bioeconomic analysis of carbon sequestration in farm forestry: a simulation study of *Gliricidia sepium*. *Agroforestry Systems*. 64: 237-250.

44 Wise, R.M. and **Cacho**, O.J. 2005. Tree-crop interactions and their environmental and economic implications in the presence of carbon-sequestration payments. *Environmental Modelling and Software*. 20 (9): 1139-1148.

45 **Cacho**, O.J., Wise, R. and MacDicken, K. 2004 Carbon monitoring costs and their effect on incentives to sequester carbon through forestry. *Mitigation and Adaptation Strategies for Global Change*. 9 (3): 273 – 293.

46 Keys, S., Crocos, P. and Cacho. O.J. 2004.Commercial growout performance and cost-benefit analysis for farm production of the brown tiger shrimp *Penaeus esculentus*. *Aquaculture Economics and Management*. 8 (5-6): 295-308.

47 **Cacho**, O.J., Hean, R.L. and Wise, R. 2003. Carbon-accounting methods and reforestation incentives. *Australian Journal of Agricultural and Resource Economics*. 47: 153-179.

48 Hean, R.L. and **Cacho**, O.J. 2003. A growth model for giant clams *Tridacna crocea* and *T. derasa*. *Ecological Modelling*. 163 (1-2): 87-100

49 Hester, S. and **Cacho**, O.J. 2003. Modelling apple orchard systems. *Agricultural Systems*. 77: 137-154.

50 Odom, D.I.S., **Cacho,** O.J., Sinden, J.A. and Griffith, G.R. 2003. Policies for the management of weeds in natural ecosystems: the case of scotch broom (*Cytisus scoparius*, L.) in an Australian national park. *Ecological Economics*. 44: 119-135.

51 Hean, R.L. and **Cacho**, O.J. 2002. Mariculture of giant clams, *Tridacna crocea* and *T. derasa*: management for maximum profit by smallholders in Solomon Islands, *Aquaculture Economics and Management* 6: 373-395.

52 Purnamasari, R., **Cacho**, O.J. and Simmons, P. 2002. Management strategies for Indonesian rubber production under yield and price uncertainty: a bioeconomic analysis'. *Agroforestry Systems*. 54: 121-135.

53 **Cacho**, O.J. 2001 An analysis of externalities in agroforestry systems in the presence of land degradation. *Ecological Economics*. 39: 131-143.

54 **Cacho**, O.J., Greiner, R. and Fulloon, L. 2001. An economic analysis of farm forestry as a means of controlling dryland salinity. *Australian Journal of Agricultural and Resource Economics*, 45: 233-256.

55 Greiner, R. and **Cacho**, O.J. 2001. On the efficient use of a catchment's land and water resources: dryland salinization in Australia. *Ecological Economics*. 38: 441-458.

56 Scott, J. and **Cacho**, O.J. 2000. Modelling the long-term effects on farm net worth of investments in pasture fertilizer under constraints of family expenditure. *Agricultural Systems*, 63:195-209.

57 **Cacho**, O.J and Simmons, P. 1999. A genetic algorithm approach to farm investment. *Australian Journal of Agricultural and Resource Economics*, 43(3):305-322.

58 **Cacho**, O.J., Bywater, A.C. and Dillon, J.L 1999. Assessment of production risk in grazing models. *Agricultural Sytems*. 60:87-98.

59 **Cacho**, O.J., 1997. Systems modeling and bioeconomic modeling in aquaculture. *Aquaculture Economics and Management*., 1:45-64.

60 **Cacho**, O.J., Finlayson, J.D. and Bywater, A.C. 1995. Simulation of grazing sheep: II. Whole farm model. *Agricultural Systems*. 48:27-50.

61 Finlayson, J.D., **Cacho**, O.J. and Bywater, A.C. 1995. Simulation of grazing sheep: I. Animal growth and intake. *Agricultural Systems*. 48:1-25.

62 Tai, C.F., Hatch, L.U. Masser, M.P., **Cacho**, O.J. and Hoffman, D.G. 1994. Validation of a growth simulation model for catfish. *Aquaculture*. 128:245-254.

63 **Cacho**, O.J. 1993. A practical equation for pasture growth under grazing. *Grass and Forage Science*, 48:387-394.

64 **Cacho**, O.J., Kinnucan, H. and Hatch, U. 1991. Optimal control of fish growth. *American Journal of Agricultural Economics*. 73:174-183.

65 **Cacho**, O.J., 1990. Protein and fat dynamics in fish: A bioenergetic model applied to aquaculture. *Ecological Modelling*. 50:33-56.

66 **Cacho**, O.J., Hatch, U. and Kinnucan, H. 1990. Bioeconomic analysis of fish growth: Effects of dietary protein and ration size. *Aquaculture*. 88:223-238.

67 Kinnucan, H., **Cacho,** O.J. and Hanson, G.D. 1986. Effects of selected tax policies on management and growth of a catfish enterprise. *Southern Journal of Agricultural Economics*. 18: 215-225.

BOOKS

68 **Cacho**, O., Hean, R., Ginoga, K., Wise, R., Djaenudin, D., Lugina, M., Wulan, Y., Subarudi, Lusiana, B., van Noordwijk, M. and Khasanah, N. 2008. Economic potential of land-use change and forestry for carbon sequestration and poverty reduction. ACIAR Technical Reports No. 68, 98 pp.ISBN 978 1 921434 33 4. http://aciar.gov.au/publication/tr068

BOOK CHAPTERS and MONOGRAPHS

69 **Cacho**, O.J. 2009. Economics of carbon sequestration projects involving smallholders. In Lipper, L., Sakuyama, T., Stringer, R. and Zilberman, D (eds), Payment for environmental services in agricultural landscapes: Economic Policies and Poverty Reduction in Developing Countries. New York: Food and Agriculture Organization of the United Nations and Springer Science & Business Media, LLC. pp 77-102. (ISBN 978-0-387-72969-5).

70 Wise, R.M. and Cacho, O.J. 2008. Optimal land-use with carbon payments and fertilizer subsidies in Indonesia. In Otsuka, K and Kalirajan, K. Agriculture in developing countries, technology issues. Sage Publications, New Delhi. pp 81-99.

71 **Cacho**, O.J. and Lipper, L. 2007. Abatement and transaction costs of carbon-sink projects involving smallholders. Fondazione Eni Enrico Mattei, Nota di Lavoro CCMP 27.2007. http://www.feem.it/Feem/Pub/Publications/WPapers/default.htm
