

Some comments from teachers and students involved in the limited release of Ghastly Guests unit of work:

Teacher comments:

- Great variety, easy access, excellent work quality, it's a winner!
- High quality is a feature
- The unit is easy to access and use,
- We have been very satisfied with this unit.
- The unit includes some great cooperative team work activities.
- Primary teachers can adapt your unit to suit any age K-6. There are also so many activities to choose from, which is excellent.
- A great unit well done!
- I was delighted to use this program because a range of ability levels were presented.
- This unit has been professionally researched offers great presentation and supporting resources.
- A wonderful resource!
- This has been, and will continue to be a worthwhile resource in our educational programs.
- I want to congratulate you on producing a fine resource which became a catalyst for studying a topic right on our doorstep but usually ignored. Thank you
- I was most impressed with this teaching unit- a professionally presented, well planned and useful teaching resource!
- This is a well worthwhile unit that complimented our existing environment program.
- A very comprehensive package – a good level of knowledge was provided to guide the teachers. The activities were clearly explained and straight forward. The children enjoyed all tasks that were completed and performed well.
- A good range of activities over a variety of learning areas were presented.
- Thanks for the opportunity to be involved, it has been great!

Student comments:

- We did some fun things (making weed seeds, drawing cool scientific diagrams, pressing plants, amazing experiments), it was all awesome fun, the only minus is the program doesn't go for long enough.
- When we started I didn't think this unit was going to be very good, but it was fun and I've learnt a lot!
- It was lots of fun.
- Now I tell mum what to put in her garden and what not.
- We did really good experiments
- Ghastly Guests is a great way to learn about weeds in such a place where we live because now everywhere I look I see the weeds.
- I did not know that weeds can look good and can spread so easily.
- I had fun learning about weeds. I had weeds in my garden that I thought were plants.
