RESIDENT CONDUCT POLICY

PREAMBLE

St. Albert's College is a Catholic community of learners. Members of this community are supported in their endeavours to identify and develop their own individual gifts and to thus reach their potential. They are also challenged to contribute to the collaborative climate, which underpins effective learning and the development of each individual. This approach reflects the firmly held view that individual potential is best realised in a caring community that explicitly promotes faith, service and learning.

In seeking to achieve its vision, St. Albert's College strives to be:

- **A Community of Faith, Hope and Love**
Through opportunities to develop the student's understanding of their faith, to attend communal liturgies, to foster relationships with other members of the community and through the way people in the community treat each other.
- **A Community of Learning**
Through the promotion and support of effective learning practices and the promotion of lifelong learning.
- **A Community of Care**
Which attempts to develop relationships based on Gospel values and respect for each other and which attempts to ensure that the individual needs of each student are met through such avenues as a Pastoral Care Programme.
- **A Community of Service**
Through a conscious effort to be globally aware and to act in a spirit of Stewardship towards the earth and its people, through works of charity reflecting the Church's mission for the poor and underprivileged and through working in partnership with the local community.

St. Albert's College believes in the dignity and sacredness of each person in the college community. We therefore seek to provide a harmonious and supportive environment, where all behaviour is based on Christian values and the fundamental rights and responsibilities of the community members. It is a place where the respect for the beliefs, feelings, person and property of others is of the utmost importance. In this way the College provides an environment that will foster the growth of the whole person – spiritually, socially, emotionally, intellectually and physically.

As the Residents at St. Albert's College are also UNE students, each student is covered by student conduct rules that relate to their membership of:

1. St. Albert's College and the UNE Residential College System
2. UNE

This policy outlines the guidelines and procedures relating to the conduct of the Residents at St. Albert's College.

 - b. Each Resident is expected to show consideration for others and respect their privacy and rights at all times. Thus any undue pressure on, disturbance of, or harassment of, others will be viewed seriously.
 - c. Each Resident is to show respect for College property, their own property and the property of others.

- 1.2 As a UNE student residing at St. Albert's College each Resident is required to familiarise themselves with the relevant rules and procedures of the College. When accepting the College offer of membership they sign an Accommodation Agreement in which they agree "to the College's ethos, codes of conduct, rules and policies".

- 1.3 Due to the complexity of the situation at UNE, Residents may find themselves coming under more than one set of rules. Residents at St. Albert's College will be subject to:

 - c. **UNE Student Behavioural Misconduct Rules** apply when a Resident is located on the UNE campus, at another UNE Residential College, represents UNE or when they carry out any action that reflects on The University of New England.

In cases where there is doubt the College Master will decide which set of rules will apply to a given situation.
