NOTES

1. Students are required to sign a residential contract that commits them to remain at the College until the end of a given semester (half year). Students who leave College early are required to either find a suitable replacement for their room or pay the stipulated fees until the end of the semester.

Exception: 1st Year students are allowed to leave College early, without payment, if their departure occurs within the first 4 weeks of semester 1.

2. This once only deposit is paid by all new students and is repaid to the students on their departure from the College. It would be held against any damages that occur to the student's room or College facilities and against the non-payment of College fees.
3. This annual deposit is held against the loss of the building / room keys and covers the cost obtaining new keys.
4. The charge for the Internet and phone connection is levied on all students to help pay the UNE fee for this service. It applies whenever a student arrives in college regardless of the time of year.
5. This discount is available to any student who has completed at least 2 years at St. Albert's College and is commencing their 3rd year or later year of College residence and fulfils the conditions for the discount. It is not an automatic discount and must be applied for.
6. Post graduate students receive this discount on condition that they assist the College by running academic support sessions. They are not eligible for any other discount.
