RESEARCH AND PEACE-BUILDING IN OUR COMMUNITY: TIMOR LESTE - WHAT COLLEGIAL SUPPORT CAN ACHIEVE

GLENDA KUPCZYK-ROMANCZUK and GREG CARROLL

This seminar will report on work with the English Department of the Faculty of Education and Science at the Universidade Nasional Timor Lorosaé begun in September 2005 and continued in January 2006 and which will hopefully continue into the future.

The January visit was funded by generous donations from colleagues in FEHPS.

We will consider the amount of good will and good research that can be achieved when our Faculty works collegially and collaboratively.
