**From the Editor...**

Welcome to Earle Page College! My name is Melinda Boyce and I am the Publications Editor for 2009. It is my job to produce the Weekly Page, a weekly newsletter which lets you know what is happening around college. In this issue, I've included some vitals about college life that you will need to know, and will hopefully make your transition into college a bit easier for you.

Over the next week, you are going to be barraged with information, opportunities, a whole new vocabulary, lots of people and tonnes of fun! If you feel a bit overwhelmed, just remember, you are *not* alone! But don't stress! Enjoy this week, because you never get to do it again!

Living at college, especially one as good as EPC, is a once in a lifetime experience, so my advice to you is to make the most of it, and enjoy the ride!
