Initiative

## Postgraduate Workshop in Pollination Ecology 17-20 October 2010

Mt Hyland Wilderness Retreat, northern NSW

1st notice

A hands-on workshop is being organised for students studying pollination ecology. Activities include demonstrations and discussions on methods in determining breeding systems, pollen flow, pollen libraries, pollen-tube growth, pollen germination, insect identification, pollinator networks, molecular tools, working with endangered species, non-invasive pollen sampling from mammals and insects and opportunities for student presentations.

Costs: **\$950** for 3 nights, 4 days and includes accommodation, meals and course materials. Return transport from Armidale to the Retreat is available for \$50 but seats are limited. To receive further information and to pre-register your interest for the workshop please contact Caroline Gross via the on-line site <https://www.surveymonkey.com/s/JWTYNXT>

Course presenters; Prof Caroline Gross (UNE); A/Prof Sue Carthew (UAd); A/Prof Alastair Robertson (Massey, NZ); Dr Glenda Wardle (USyd); A/Prof Ross Goldingay (SCU); A/Prof Don Drake (UHawaii); Dr Simon Potts (UReading, UK); Dr Mary Harris (Iowa State, US); Prof John Nason (Iowa State, US); Dr Linda Newstrom-Lloyd (Landcare, NZ); Dr Yvonne Davila (USyd) with special involvement from recent graduates Drs Simone Simpson, Azadeh Haddadchi and Ms Wendy Waters and Penny Nelson.

We are proudly sponsored by
