26 May 2009

As from 25 May 2009 the Australian Government has requested that all children of school age returning from the countries listed below enter into a **voluntary 7 day quarantine period** at home.

Countries relating to this warning are:

- **Canada**
- **Japan**
- **Mexico**
- **Panama**
- **United States.**

In the interests of the University Community at large, we ask that you pay special attention to this request in respect of **your children**, and monitor **your own personal health** during the period. Should you show any symptoms whatsoever, the University encourages you to consult your Medical Practitioner immediately.

If you are a **student**, or know of students returning from overseas, particularly those countries listed, the University strongly recommends that you obtain medical clearance before returning to campus, in order to protect your colleagues and friends.
