### Notes on Casual General Staff Salary Structure

The salary rates for casual general staff are calculated using the following formula:

$$\frac{\text{Relevant HEO, Step 1} * 0.98676}{52.17857} + 23\%$$

*Where:* 0.98676 = annual leave loading coefficient;  
52.17857 = weeks in a calendar year;  
35 = notional hours worked per week; and  
23% = casual loading.
