

ITD Fact File:

Setting up Wireless on the iPhone

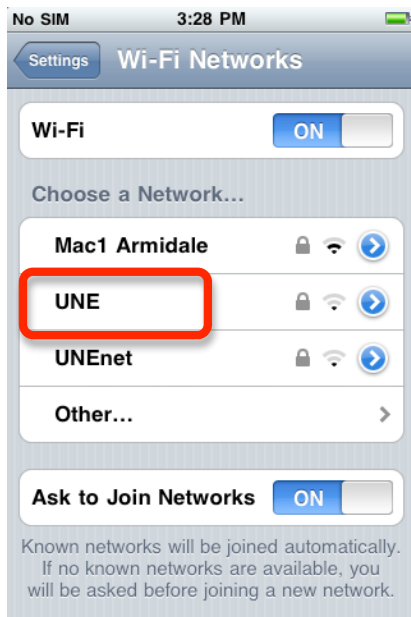

Information Technology Directorate – ITD Service Desk

Step 1: Click on the Settings icon on the iPhone's main screen.

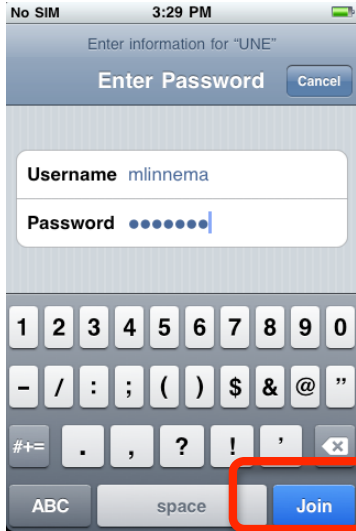

Step 2: Select WIFI from the Settings screen.

Step 3: Select the network UNE and click on the name to join the network

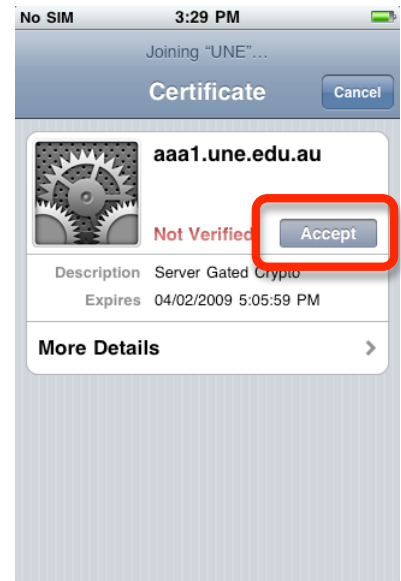

Setting up the UNE Wireless on an iPhone

Step 4: Enter your UNE username and password.
Note: If your password was last changed prior to 2007, please reset your password in the "Accounts" tab of MyUNE (<http://my.une.edu.au>) before proceeding.

Step 5: Click JOIN to join UNE's wireless network.

Step 6: Accept the Certificate.

You are now connected to the UNE Wireless network.

If you want to connect your iPhone to the internet via the UNE wireless, additional steps are required.

- 1) Return to the main screen of your iPhone.
- 2) Select SETTINGS and the WIFI (as above).
- 3) Select small blue arrow next to the "UNE" wireless and scroll down to the HTTP Proxy section on the next screen.
- 4) Set the settings to AUTO and enter the following URL: <http://proxy.une.edu.au/proxy>

The setup is now completed
