### **2. Uralla Central School**

Mike Cregan (UNE) corresponding Tablelands Industry.

UNE Landcare have been asked to act as an environmental industry to teach the school kids (aged 14-16 yrs) about project management and site rehabilitation. This project is likely to take four working bees:

1) site visit/ research

2) soil prep

3) planting

4) maintenance

The project will run over a six month period and will commence the week of April the 2<sup>nd</sup>. Carina will arrange a time for site visitation.

### **3. Boulton Talk**

Talioiers Committee environmental education. Andrew Boulton has organised a talk about river health and asked UNE Landcare to go along to talk about our project, the problems we faced. It is proposed for Friday the 29<sup>th</sup> of June and represents a good opportunity for us to find new recruitments.

### **4. Working Bee**

Unfortunately the working bee for Sunday the 25<sup>th</sup> of March did not take place due to poor weather. 100m of the site has been slashed, at a cost of \$600, and as a result mulching needs to be done promptly.

### **5. Web site**

Carina to find out whether it is possible for UNE Landcare to get an email address so as to obtain a separate password. We would need a project officer to volunteer for maintaining the website.

### **6. Work placement**
