

UNIVERSITY OF NEW ENGLAND
LECTURER IN MOLECULAR AND CELLULAR BIOLOGY
School of Science and Technology

Further Information

More information about molecular and cellular biology at UNE can be found here (<http://www.une.edu.au/science-technology>).

Duties

1. Contribute to teaching in undergraduate biochemistry and molecular biology programs, including on campus and distance teaching
2. Supervise postgraduate students.
3. Pursue an active independent research program, apply for research funding, and where appropriate collaborate with other research groups.
4. Contribute to administration within the School.

Selection Criteria

Essential

1. PhD in a relevant area.
2. Proven ability to carry out a research program.
3. Ability to contribute to teaching of core topics in biochemistry and molecular biology.
4. Excellent communication and organisational skills and the ability to relate well to colleagues and students.
5. Commitment to EEO Principles as they apply to the position.

Desirable

1. Research experience in clinical biochemistry, medical or veterinary microbiology or virology.
