PROCEDURES FOR APPROVAL OF ACADEMIC DRESS

The University Council delegated authority to the Academic Board to approve academic dress. The Council approved a system of categorisation of academic dress based on the DEST disciplinary area classification codes.

Faculties are to include the distinguishing colour of academic dress when proposing new awards for approval by the Council and recommendation by the Academic Board. The Secretary of the Academic Board is to liaise with the faculty and, where necessary, with the Secretary to the University Council.

FOOTNOTES

¹ The standard colours for purposes of academic dress are defined in the British Colour Council Dictionary of Colour Standards (1951 edition).

² Where two colours are named the 10cm single facing on the gown is replaced by two 5cm facings. The first colour is nearest to the centre of the body and the second to the edging of gold. The sleeves are lined with the first colour and edged with a 5cm band of the second. The hood is lined with the first and edged 5cm with the second; the latter edging is inside the hood only and lies inside the gold.

³ Where two colours are named, the hood is lined with the first colour and edged 5cm with the second; the second is inside the hood only and lies inside the gold. The neckband is lined with the first.

⁴ Where two colours are named, the hood is lined to a depth of 15cm with the first and edged 4cm with the second; the second is inside the hood only and lies inside the gold. The neckband is lined with the first.

⁵ Where two colours are named, they shall each be 6.5mm wide and in the case of the Associate Diploma the first shall be above the second. In all other cases the first shall be nearest the outside edge of the stole.

⁶ Any graduand may, for religious reasons, seek exemption from the requirement to wear the stipulated headgear.

⁷ Students are presented with two testamurs and wear the hood of their choice.

⁸ Students are presented with only one testamur and wear only one hood.
