- I loved this course – perhaps the only thing that could be different is if it was more challenging or have VCSLP part 2 which explores the next level
- The group was very well put together – we have become more open people because of this
- I looked forward to coming; even when I was not feeling very happy, I walked out thinking that I had the world in my palms. Thank you.
- I think this program has really helped us on doing our own catharsis and look at our strengths and weaknesses
- It has helped in organising our personal lives
- I think that the VCSLP is really valuable – it is so easy to travel through university with blinkers on and keeping the attention strictly on subject matter
- Programs like the VCSLP broaden horizons and scope and inspire each person to want to make positive contributions within their organisations and communities
- The VCSLP provides participants with a skill set that will prove helpful for beyond the scope of just leadership. It makes you more self-aware, motivated and confident in owning our personal vision.
