Overview
UNE’s Master of Professional Accounting enables students to gain professional qualifications in the field of accounting. The course covers both introductory and advanced units in financial and management accounting, finance, tax and company law, and auditing. It is accredited by the Institute of Chartered Accountants in Australia, CPA Australia and the Institute of Public Accountants. On successful completion of the course, graduates can apply to these professional accounting bodies for Associate Membership and then pursue full professional status with the body of their choice.

Minimum Entry Requirements
To study the course over 2 years, applicants must hold an Australian Qualifications Framework (AQF) Level 7 Bachelor degree or overseas equivalent in a discipline not related to accounting, business or finance.

To study the course over 1.5 years, applicants must hold an AQF Level 7 Bachelor degree or overseas equivalent in a discipline relevant to accounting, business, or finance.

Applicants must also meet the English Language Requirements for Admission Rule published at http://www.une.edu.au/policies/student-policies

Students may choose to complete one of the Recommended Pathways (12 credit points): Tax Practitioner (Approved by Tax Practitioners Board) or Financial Planner (ASIC RG146 Compliant) – see above for unit details.
Overview
UNE’s Master of Business enables students to gain a postgraduate qualification specialising in either finance or accounting. Students study 8 core units and 8 specialising in either the finance or accounting majors. The core units provide students without an undergraduate business background the opportunity to gain an appreciation for, and enhance their understanding of, a range of accounting, economic, management, marketing and legal fundamentals that underpin contemporary business operations in public, private and not-for-profit sectors. These business fundamentals will then be considered, refined and expanded on according to the chosen major.

Graduates will be equipped with a strong understanding of core business principles including management, accounting and finance that can be applied in a range of contexts. Graduates who complete the accounting major can pursue careers as managers or accountants. Those students who complete the finance major will be suited to roles in a range of financial institutions.

Minimum Entry Requirements
To study the course over 2 years, applicants must hold an Australian Qualifications Framework (AQF) Level 7 Bachelor degree or overseas equivalent in a discipline not related to accounting, business or finance.

To study the course over 1.5 years, applicants must hold an AQF Level 7 Bachelor degree or overseas equivalent in a discipline relevant to accounting, business, or finance.

Applicants must also meet the English Language Requirements for Admission Rule published at http://www.une.edu.au/policies/student-policies
