

Safely Interacting with Kangaroos

We share our bushland campus with a variety of native animals.

Kangaroos can injure people if they are surprised/cornered so here are some basic rules to follow to keep us all safe:

- ✓ Maintain a respectful distance from kangaroos and wildlife on campus
- ✓ Be mindful of wildlife when travelling on roads and footpaths
- ✓ Report injured wildlife to Safety and Security on 6773 2099
- ✓ Be aware of potential aggressive behaviour in kangaroos, including growling, clucking, and sparring

- ✗ Approach or hold your arms out towards a kangaroo
- ✗ Move between a female and her joey
- ✗ Approach kangaroos engaged in courtship or mating behaviour – for example, males sniffing, touching or moving round with females
- ✗ Go near male kangaroos that are sparring, fighting or showing off their size and strength to each other

Let's work together to keep our animals and visitors safe.
