

Plant, Soil & Environment Systems Seminar Series

When: **12 - 1pm Thursday, September 29th**

Where: **Wright Lecture Theatre**

Meeting ID: **863 0972 2058** Passcode: **634804**

Environmental Restoration in Sudbury, Ontario, Canada

Dr Martin Brummell

Biography

Martin is a lecturer in Environmental and Rural Science, coordinating several units across the school. Martin joined UNE, coming from Canada, in 2019 with a UNE Post-doctoral Fellowship, studying the microbial ecology of flowers, and the effects of agricultural chemicals on ecosystem functions including pollination.

In a previous position in Canada, Martin led a study of the recovery of urban forests in Sudbury, Ontario, where a history of mining and metal smelting has had severe impacts on local ecosystems. Join us as Martin discusses this work.
