
Ian Reeve

Senior Group Leader

Academic Qualifications

Bachelor of Science, University of Queensland, 1974.

Major areas: earth science and pure mathematics.

Graduate Diploma of Natural Resources, University of New England, 1975.

Soil and water conservation engineering.

Master of Natural Resources, University of New England, 1982

Soil erosion modeling.

Graduate Diploma of Statistics, University of New England, 1992.

PhD, Australian National University, 2005.

Environmental sociology and politics.

Employment History

- 2004- Senior Group Leader, The Institute for Rural Futures, University of New England.
- 2000-2004 Principal Project Director, The Institute for Rural Futures, University of New England.
- 1996-2000 Senior Project Director, The Rural Development Centre, University of New England (part-time).
- 1990-96 Project Director, The Rural Development Centre, University of New England.
- 1987-90 Project Officer, The Rural Development Centre, University of New England.
- 1985-87 Casual Lecturer, Small Area Farming, Armidale TAFE.
- 1985-87 Junior Research Fellow, The Rural Development Centre, University of New England.
- 1979-85 Tutor, Department of Resource Engineering, University of New England.
- 1975-76 Research Assistant, Geology Department, University of New England.
- 1970 Assistant Geologist, Geopeko Ltd, Tennant Creek.
- 1968-70 Assistant Geologist, Petroleum Section, Queensland Geological Survey, Brisbane.
- 1967-68 Officer-in-Charge, Drill Core Library, Queensland Geological Survey, Brisbane.

Professional Experience

Wide range of research skills including literature search and review, experimental design, measurement and data collection in both the social and biophysical sciences, development of mathematical models, statistical and spatial analysis and report writing.

Research experience in geology, soil science, soil and water conservation engineering, professional, agricultural and adult education, water resource management, environmental and agricultural policy, environmental sociology, demography and social impact analysis.

Extensive experience on mainframe and desktop computers with graphics, statistical, data base management and communications software.

Languages

Fluent in written Norwegian, Swedish and Danish.
