

Specific Requirements for Professional Experience EDEC207: Authentic Assessment with Children: PrEx 10 days

Teacher education students undertake a 10-day professional experience placement in an early childhood service working with **children aged birth to under 3 years** and their families. You need to successfully complete the 10 days of professional experience to obtain a 'Satisfactory Result' (SR) in order to pass this unit. A *Professional Experience Report* only is required in this professional experience due to the shorter length of the professional experience. The focus of this placement is to implement an assessment and planning cycle with a group of 2-3 children, then evaluate as outlined under Assignment 2 guidelines.

It is essential you continue to demonstrate and practise skills in working with infants, toddlers and young children and to build further on these skills with each successive professional experience. In this unit you will be assessed on a range of professional skills over the course of your professional experience. Ensure the *Professional Experience Report* and your progress is discussed with your supervisor during the professional experience and points recorded under Interim Comments in the *Professional Experience Report*. Your supervisor will fully complete the report with you at the end of Day 10. A sample copy of this report is available on the PREXUS Moodle site.

As an integral aspect of ongoing critically reflective professional practice you are also required to continue writing in your *Critically Reflective Learning Journal* - for the duration of your professional experience. The National Quality Framework states that *Educators take a planned and reflective approach to implementing the educational program by using an assessment and planning cycle and engaging with critical reflection to improve the program and practice* (ACECQA 2020), so you can see that this critical reflective practice will become an everyday part of your teaching life. Hint, refer to Topic F, you will find a detailed list of questions that will prompt your critical thinking and you can start with:

- What has gone well today?
- What have I achieved?
- What are the next steps?
- What has not gone so well?
- Where can I get some help with this and when?

Note there are three tasks you need to complete BEFORE you begin your professional experience placement listed below.

In addition to the generic PrEx requirements, this unit also has a number of specific requirements.
