Intensive Poultry - refer to Grahame Chaffey for charges

Note 1: R&D: actual feed costs + 50 c/day management + \$2/day data etc.

Contract feeding charge is actual feed costs + \$85/tonne.

Note 2: to be negotiated depending on farm requirements and opportunity costs.

Note 3: Farm staff at an appropriate half daily rate including on costs.

Weekend work will be charged at time and half for Saturday and double time on Sunday - minimum half day.

Note 4: All Damage will be paid by the person using the vehicle at the time. Minimum Charge \$10.00.

Note 5: Over and above GST incl. cost paid by the RP where farm staff carry out the purchasing or monitoring of use.

R&D Project protocol

Step 1: Project leader fills in the 'resources required' form on the rural properties website

Step 2: form approved by relevant farm manager, AFM and Finance (L Taylor)

Step 3: Project leader draft an agreement based on the resources form that includes the annual payment schedule

Step 4: Agreement approved by AFM and Finance and then sent and stored in TRIM via CSO office

Step 5: Chris Cooper and John Schuman copied the payment schedule for farm invoicing of the project.
